Diana Colleran (secretary)

Sue Walker

Adrian Pymm

Dave Burke

Steve Barrat

Robert Littlewood

Dan Evans (WLDC)

Councillor Pat Mewis

Steve England

Jean Langford

Mark Schofield

Apologies

Angela Scott

Janet Redfern

Kim Anderson explained where we are now via the spreadsheet of raw data which was drawn up from the results of the recent questionnaire and where we proceed from here. Daniel Evans said this would be to get a common response (key issues) these key issues should be compiled into lists so they could be shown at the next public consultation. He suggested that we should ask the surgery in Scotter how many patients were on their list and to approach the School plus any other service providers to tell them our plans and ask their opinions. We need to appoint a consultant for which we are going to need more funding this consultant will write the basic conditions and protect our assets. The character assessment and the consultation will be done by separate people.

Natalie Cockereel's name was put forward along with Ann Skippers who are both planning consultants.

This week we are to identify the key items from the spread sheet. Invitations will then be printed for another public consultation possibly one evening Steve England suggested Friday 22nd/29th of September. It was decided that the committee would meet again before the public consultation but a date was not set.
