Kim summarised the minutes of the last meeting.

Bev stated that if everything went according to plan then the next lot of funding would be available by mid-January 2018

Bev said that she had asked for technical support from AECOM this is available via locality she said she had explained to locality where we are at present with the call for land and

also the need for a new burial ground. She said she had applied for £2,410 the character assessment was included in this amount however it would appear that this can now be done for nothing she has also applied for printing and venue hire costs. We need to establish how we are to pay Luke Brown for his services. Kim has been researching the next stage of the plan and said that she would email this information to the committee in due course.

Bev then read out the land submissions

1, 11a Westgate	Dave Small

14,12 Westgate Chafer

15,44 Westgate Williamson.

Robert Littlewood said that after reading the scoping report draft that he emailed Daniel Evans as he had identified that the map for the field to the East of Eastgate was showing the right of way running through the centre of the field apparently this has not been the case since 1991 the right of way now runs along the river bank. Daniel Evans in turn emailed back acknowledging this fact.

The next meeting is to be held on the 18th January 2018 it was decided that we would invite Daniel Evans as his services are free and it would put less financial stress on an already stretched council budget.
