Kim said she had received one more submission since the last meeting from a resident on Crapple lane. Kim also stated that Bev has heard nothing back from locality however Kim said that it would appear that the character assessment can be

done free of charge Kim then explained the nature of the character assessment which include vision objectives. Angela Scott enquired if the call for land formed part of the character assessment Kim said that this wasn't so. Locality will work with the call for land and the photographs that Mr Anderson took last year. Luke has sent a quote for £2,400 for the period starting January 2018 to March 2018. We need to prepare the vision objectives ready for Luke this however will be dependent the funding being in place. It was decided at this stage that we are now at a standstill until future funding is available to us, therefor Kim decided to provisionally arrange a meeting for the 25<sup>th</sup> January.
