Kim said that she would be sending out replies to the notification of interest letters that she had received from committee members who were land owners.

The ballot papers (which took place during the public consultation) were then counted and the objections were

subtracted from the support votes thus giving positive and negative results. These results were then read out as follows:

(np01) +27,

(np02)+5,

(np03)+9,

(np07)+9,

(np09)+39,

(np10)+2,

(np11)+22,

(np13) 0,

(np15a)-48,

(np15c)-2,

(np15d)+30.

On this basis the following sites are to be put forward for consideration:

(np9)

(np15d)

(np1)

(np11)

(np3)

(np7)

(np2)

(np10)

(np13)

However Luke did raise concerns regarding access for np2 and np3, it was suggested that as highways are one of the consultees this may be addressed by them.

It was decided to invite all the land owners to discuss the results at a future meeting, the date for which was arranged for Thursday December 6th at 19.00pm in the village hall.
